

# Ugliest Monster Captured Skit Week #2

The scene begins with a counselor dragging a sleeping bag (with another counselor inside) out in front of the campers and announces that they have captured the biggest, meanest, ugliest monster behind the girls' cabins. *(Note that if this skit is done by girls then the ugliest monster was found behind the boys' cabins!)*

The counselor begins to describe how ugly the monster is; big glowing red eyes, large yellow fangs. The counselor then ask if anyone is brave enough to look at the monster.

The "volunteers" are all in on the skit. Each volunteer says something when s/he gets to the stage such as, "I'm not afraid of anything," "Nothing can be THAT scary especially after seeing the Fantastics!," "What could be that bad . . . I've been around the Stewards this week and I'm not too bothered!," "I'm scared to death!!!! I'm shaking all over! Don't make me look!" etc.

The first volunteer looks in the sleeping bag and screams and runs away. The same happens with a second and third volunteer. *(However, each "volunteer" should do something very different than the other "volunteers" such as different screams, running a different way, running in circles, running into the stage backdrop, throwing up etc.!)*

The counselor now ask for one more volunteer. This should be a staff person (Whether s/he volunteers or not choose a staff person ahead of time you will call upon.) who doesn't mind having a joke played on them and is not in on the skit.

This time as the volunteer looks in the sleeping bag, the "monster" in the sleeping bag screams in a bizarre way and runs away perhaps screaming hysterically up through the audience.
