

# Bubble Gum Bubbles, a skit for staff

You need to have one seat in front of the audience.

Choose 2 or 3 staff (cooks?, RADD? nurses? grandparents?, and explain to them that each of them need to mime an action very dramatically.

Show a poster to everyone at the campfire that the staff tells them the staff think they are pantomiming blowing large bubbles with gum. But that really we all know what each one is doing is that they fell in love with a giant blow fish.

After each staff person does their thing show the person the poster without letting the others backstage know what's going on.

No words can be said but noises such as grunts and screams are allowed and encouraged.

One by one the staff members or counselors will go and sit in the seat and do their actions. They do not know why they are doing them though until each one is over.
